The Parliamentary Review
A YEAR IN PERSPECTIVE

Active Maths Workshop

The course looks at the research, rationale and benefits of introducing 'active maths' into the school curriculum - focusing on how this approach is raising attitudes and attainment to maths in schools across the UK and internationally.

Delegates will be introduced to the multi award winning educational resource 'Maths of the Day' (www.mathsoftheday.org.uk) - an online resource which provides teachers with 2000+ lesson plans and resources on how to deliver maths through physical activity.

*Delegates will be given free sample plans for every year group and those wishing to purchase the MOTD will be offered a discount for attending the course

Who is the course for?

- Maths leaders/PE leaders/HTs/SLT

*Please note: this course is for qualified teachers only

"As a result of Maths of the Day, attainment in maths - and children's enjoyment of maths - is improving"

- Ofsted
